Northumberland Council contract

Our contract with Northumberland Council ensures that our residents are told in advance of moving into a care home on a private contract about any of the following possibilities:

- Whether, if their assets run down and they became eligible for social care funding, they might have to find someone willing to pay a third party top-up in order to remain in the care home.
- Whether, if they were detained for treatment in a psychiatric hospital, and became eligible for after-care funding under the Mental Health Act, they might have to continue to pay part of the fees as a top-up in order to return to the same home.
- Whether, if they became eligible for CHC while resident in the home, the provider would accept public-sector fee rates for their placement (as has been the usual understanding in Northumberland). If the provider is not prepared to give this commitment, the resident or their representative needs to know before moving into the home that there is a possibility that in that situation, NHS commissioners would require them either to remain in the care home as a private patient with no NHS support towards the fees or to move to a different care home.

MHA will continue to accommodate a formerly-private resident at public-sector rates, without additional payments, in any of these three situations **unless** it can provide evidence that it brought the relevant element of its policy to the attention of the resident or their representative before they decided to move into the home.

Respite care per week: please speak to us about your requirements and length of stay

Fee reviews and changes

Fees are reviewed annually in April. We may also review our fees at any other time if:

- your care needs (as set out in the Care Plan) change and we make a change to the services you receive
- you request to change the type of room you occupy
