Understanding the Contingency Fund

What is the Contingency Fund?

This is funded from deferred fees (see above) and covers spending for the repair or renewal of communal areas, roofs, lifts, etc identified from stock condition surveys.

The lease provides for leaseholders to cover any shortfall in the funds available for repairs through the service charge but it is MHA's policy to cover the shortfall itself.

In the event of major capital repair costs exceeding the contingency funds available, MHA will cover the short fall.

Restrictions

Restrictions on selling the property

Purchasers must satisfy the scheme's criteria (including age and care needs). The Manager will assess this prior to purchase. If an individual has personal care needs, this will be assessed prior to purchase to ensure that these can be met, either by MHA or a care agency chosen by the purchaser.

MHA has an option to buy back the property if we choose to. If we do buy back the property, we will do so at 95% of the open market value as determined by an independent valuer.
